Veterans Ask Land Grant

Survivors of Fenian Raids and Red River Expedition see Laurier.

Hyman Will Likely Be Sworn In Minister of Public Works.

The Yukon Territory Is to Be Added to British Columbia.

OTTAWA, May 10.—Premier Laurier today received a deputation of veterans of the Fenian Raids and the Red River Expedition, who urged their claim for a grant of 100 acres of land in the Northwest. The premier gave a sympathetic answer.

Mr. Hyman returned to Ottawa today. He will likely be sworn in as minister of public works when the Governor General returns to Ottawa. There will be a warm contest in London.

In the Senate today Senator Templeman said that Senator Young yesterday drew attention to the fact that the petition of the Esquimalt & Nanaimo Railway was improper in form, and a duly corrected petition had never been placed in his hands. He moved that the petition be read and received. Senator Power objected that no further action could be taken until the resolution of yesterday was rescinded. Senator Templeman explained that there was urgency as the bill affected the purchase of the line by the C. P. R. and there was a time limit for the completion of the purchase. The petition was read and received.

Six B. C. Senators

British Columbia may have six senators at next session, Sir Wilfrid Laurier favored the group principle, which would give each of the provinces west of the great lakes six senators, or twenty-four in all.

Militia General Orders

Militia orders just promulgated state that the list of applicants for commissions in the permanent force, being largely in excess of all probable vacancies, is now closed except for R. M. C. cadets and graduates until further orders.

A ballot box, known as the Nelson box, patented at the department of agriculture, is the best possible check on fraudulent voting yet presented. By a simple device the voter can act as his own scrutineer without divulging the secrecy of his ballot.

On Barbed Wire Fence

The opposition kept the government on the barbed wire fence all afternoon, Sir Wilfrid Laurier being the principal victim. His explanation of why, while acting minister of the interior, he had been misled by the secretary of the department into giving the House false information regarding the cost of placing a contract for several hundred miles of the international boundary fence being the most humiliating confession of defeat in the history of the House. The plain fact is that the House gave a sub rosa contract to political henchmen without open tender, totaling about \$25,000, and without consulting his cabinet associates. The deal would not have become public had the minister resigned, resignation enabling the minister of justice to jump on the entire business, something that even as daring a man as Hon. Mr. Fitzpatrick would not have undertaken had Sifton not followed.

Tate and Blair's Example

Speaker Sutherland lifted his robes out of the mire by a letter which Premier Laurier read, stating that he, too, had been deceived by the secretary of the interior department into furnishing false information. After Sir Wilfrid Laurier had read the correspondence to show that no contract had been entered into for this work, Clements, Conservative of West Kent, said he had been means of preventing the country from paying \$500 per mile for a fence that experts said could be built for \$150 per mile. Pressed at every turn, the finance minister and his associates pleaded ignorance as to why false information given out officially to intending contractors, had not been corrected as soon as the justice department had interfered, or why it had been made to appear in this year's estimates that \$100 had been voted last session for an international fence when no such appropriation was passed.

The Alberta Bill

The House then discussed for a long time the clauses of the Alberta bill regarding provincial representation in the federal parliament at the present time for all time to come. Hon. Mr. Fitzpatrick admitting that in pressing these clauses the government was stretching its powers to the utmost limit within the bounds of the British North America act.

Premier Laurier announced the intention of dividing all the northern territories of Canada among the provinces, British Columbia to get the Yukon.

UNION HAS BEEN EFFECTED.

St. Petersburg, May 10.—The admiralty does not confirm the London report that the Russian cruiser Almaz, of Admiral Rojestvensky's squadron, has reached Vladivostok. Beyond saying that Rojestvensky and Nebogatoff says it is without news of the squadron.

IRRIGATION AT CALGARY.

Calgary, N. W. T., May 10.—The C. P. R. is making great progress on the irrigation canal. Steam shovels are moving earth at the rate of ten tons per minute of the canal, which carry it where it is used for filling.

RAILWAY MAGNATES ARRIVE.

Presidents of C. P. R. and G. T. R. Reach New York.

THE SHARRETT INCIDENT.

Archbishop Assures the Delegate of Sympathy of the Clergy in Canada.

Montreal, May 10.—Giving a report of the consecration of Bishop Racine last evening the Semaine Religieuse, organ of Archbishop Bruchesi, publishes the text of the remarks of His Grace the Archbishop concerning the Sharrett incident in connection with the Manitoba school question. Archbishop Bruchesi assures Mr. Sharrett of the sympathy of the whole of the Canadian Catholic clergy and protests against "the insults heaped upon the Catholic church" recently. Mr. Sharrett in reply says he regrets nothing and is ready to begin over again. He trusts that the political passions that broke loose will soon die away, and that the Canadian nation will resume its own normal and undisturbed flight towards the glories reserved for it by Providence.

Japanese Case Against France

Authoritative Statement Published in Paris Outlines the Claims.

Various Acts of Assistance to Rojestvensky's Fleet Specified.

Paris, May 10.—(6:05 p. m.)—In the course of an apparently authoritative statement published in the French press, it is stated that the Japanese government is stated to be as follows:

1.—Without questioning the good faith of France, Japan holds that the French orders to observe neutrality have not been sufficiently executed.

2.—France should have taken sufficient measures beforehand to prevent violations of neutrality, instead of securing the arrival of the Japanese fleet after Japan's remonstrance.

3.—In default of sufficient surveillance, Vice-Admiral Rojestvensky has been greatly facilitated in the accomplishment of his mission and in gaining access to the Japanese waters.

Consequently it was for the ends of warfare that Vice-Admiral Rojestvensky utilized on successive occasions French waters both for anchoring and refueling, and for the purpose of replenishing his fleet.

The foregoing is said to be substantially Japan's position both as to the past and as to the basis of any future claims arising from the alleged breaches of neutrality.

IN FALL WHEAT BELT.

Raymond, May 10.—A trip through the fall wheat belt, which means, in local parlance, that territory served by local railways, just now gives to the contentions of many here that this crop, and this only, is the logical crop for southern Alberta. It is certainly of inspiring sight to see thousands of acres of ripening wheat, some of which are being harvested, and in many instances seven, eight and nine inches high, and in every case strong and healthy. The leader in the wheat belt is the C. P. R. Thompson, of wheat country, in 1904, he raised 6,000 acres, all in turkey red, a variety which he introduced into this section. The seed which the C. P. R. have decided upon as being the best for the wheat belt, is the one which they have decided to import and seed grain for the Alberta farmers. The prediction was made last year that this fall would see a million bushels of wheat threshed in the district of which Raymond is the centre, and now this prediction does not seem in any way extravagant.

RAILWAY MEN'S SURPRISE.

Secretary Taft Gives Banqueters Some Plain Talk.

Washington, May 10.—Secretary Taft fairly took the breath of the 300 railway men, members of the international congress dining tonight as the guests of the American Railway Association, when the secretary declared that railway rate legislation must come, so that if the railway men of the country were wise, they would aid and not hinder it; that the sentiment of the country is such that failure of proper regulation would warrant a campaign on the subject that would do no good to the railways. Absolute silence reigned as Secretary Taft spoke his mind on the subject of rates. He was positively against government, he said, believing that nothing so deleterious could come to the question. "But," he continued, "you cannot run railroads as you run a private business. You must respond to the public demand, there is danger of discrimination, then you must allow the establishment of some tribunal that will remedy that discrimination." He saw no reason why a tribunal properly constituted should not be competent in every sense of the word to fix a maximum rate.

Combats Mr. Taft.

President Fish, of the American Railway Association, had introduced Secretary Taft in his capacity as toastmaster. Mr. Fish was on his feet as soon as the secretary had concluded. He answered the secretary at length, taking the view that to prevent discrimination, double dealing and secret rates was right, and he vigorously called for the enforcement of the law. Mr. Fish talked of the vested rights of the money tied up in railways, and the secretary replied to Mr. Fish, making him more positive as to his position. "The law now is," continued Secretary Taft, "as decided by the supreme court of the United States, that first a commission and then

whether a particular rate is reasonable or unreasonable. Now, in fixing that one has got to fix what is a maximum rate. As I understand it, what is proposed is only that in litigated cases a commission shall be constituted that shall fix a maximum rate. In other words, to go through the same process as now goes through to determine what is a reasonable rate. What I am strongly in favor of, though, is that we shall have a body that shall decide things and that shall fix the rates, and that there shall be decided within a reasonable time finally by the courts."

Anti-Jewish Disturbances

Sixteen Dead and a Hundred Wounded in Riots in Russia.

The Disorders Culminate in a Pitched Battle in City Streets.

Another Outbreak Occurs in Poland and Houses are Pillaged.

ST. PETERSBURG, May 11.—According to private advices from Zhitomir, the fruits of the anti-Jewish riots there are sixteen dead and over a hundred wounded, mostly Jews. Martial law was proclaimed at Zhitomir today. The city is filled with troops and order generally is restored, though individual cases of violence are still occurring and a renewal of rioting during the past evening and Sunday next. Stores which have been barricaded in fear of tumults are gradually reopening and ordinary life in the city is resuming.

The same private advices bring news of a further anti-Semitic outbreak in Gostynin, in the province of Warsaw, in which many Jews were injured and houses pillaged. No fatalities, however, are reported, but Jewish circles here fear further developments not only in Zhitomir and Gostynin, but also in other localities along the Polish frontier, where the Jewish element is numerous and the anti-Semitic sentiment is strong.

Official Account of Riots

The official account of the Zhitomir tumult assigns the origin of the rioting to an encounter between a party of Jews who were boat riding and some roughs on the bank of the river. The latter stoned the Jews, who defended themselves with revolvers, wounding several of the attacking party, but not seriously. Reports of the encounter quickly spread, arousing the Christian populace to frenzy. The Jews also banded together for mutual protection, and though a general encounter was prevented, the troops, several minor riots occurred, in one of which a Jewish boy was killed and several other persons were wounded.

Pitched Battle Results

The disorder culminated on May 7 in a pitched battle between Jews and Christians in the public square of the center of the city. At this time there were collisions in several of the suburbs. The principal bloodshed occurred this day and the rioting assumed apparently an organized character. Finally the military, which were present, intervened and dispersed the crowds. Numerous arrests were made, including forty Christians.

Houses and Stores Plundered

May 8 saw no renewal of fighting on a grand scale, but instead the rabble, dividing into small parties, plundered the surrounding villages near the city, and the military, and committed several murders. Tuesday and Wednesday the events were comparatively unimportant, though plundering and outrages occurred. The regular garrison of three infantry regiments has been augmented by a battery of artillery and a detachment of dragoons.

MASSACRES ZHITOMIR.

Disorders Were Participated in Mostly by Roughs.

Kieff, May 10.—Reports of the anti-Jewish disorders at Zhitomir, which were chiefly confined to May 7, though beginning on the preceding evening and continuing in form through May 8, indicate that they were participated in chiefly by roughs. The Associated Press is informed that the number of dead is eighteen, and that the number of wounded is about thirty. According to reports received at Kieff, Zhitomir has now been pacified, martial law has been declared, and a proclamation of the governor of Volhynia provinces has been issued warning the surrounding villages near to Zhitomir on May 8, attracted by reports of Jewish baiting, and minor disorders and pillaging occurred at Troynoff, 15 miles distant. Reports received here attribute the heaviest part of the disorder to the murder of Chief of Police Kuznetsov, but declare that that crime was due to personal reasons and not connected with race hatred.

VICTIMS OF THE SEA.

Overturned Boat Tells Tale of Drowning of Three Boys.

Portland, Me., May 10.—An overturned float tells tale of drowning of the probable death by drowning of three Falmouth Forebide boys who went out in a float yesterday and were caught in a gale. The boys were Bernard Stubbs, aged 16; Paul Sawyer, 16, and Robert Sawyer, 21.

SINISTER REPORTS CURRENT.

Grave Rumors as to Massacres in Southern Russia.

St. Petersburg, May 10.—Very grave reports are current in this city as to the extent of the massacre of Jews at Seltomara, capital of the province of Volhynia, southwest Russia. The number of killed and wounded now is placed as high as 200, but precise information is lacking. The minister of the interior has called for a detail report, which is expected tomorrow.

CENSURE FOR HIS EXCELLENCY.

Toronto West Gospel Temperance Society Secures the Calcium.

Toronto, May 10.—The Toronto West Gospel Temperance Society has passed a vote of censure on Earl Grey and sent him a copy for having suggested to the Methodist general conference deputation, which waited upon him on his recent visit to this city, to turn the hotel bar-rooms into workmen's clubs and cut the price of beer in half.

STRIKERS' SIEGE BROKEN.

Desperate Tactics of Dissatisfied French Workmen Defeated by Gendarmes.

Limoges, France, May 10.—The proprietor of the shoe factory who has been imprisoned in his factory here with his family, including four children, for several days by strikers, was released today by a large force of gendarmes, who arrested a number of the strikers. The family was escorted outside the town. The strikers had placed barriers across the doors and permitted only small supplies of rations to be passed into the building, and they threatened to burn the factory unless their demands were met.

WILL PRODUCE FRENCH PLAYS.

Company With Quarter Million Capital Organized in New York.

COAL AND COAL MINING.

Manager of Western Fuel Company Returns From San Francisco.

Nanaimo, May 10.—(Special)—John L. Howard, president of the Western Fuel Co., arrived today from San Francisco and will remain in town until the end of May. Regarding the operation of the mines under the amended Coal Mines Regulation Act, which is effective on June 1, Mr. Howard said he had not gone into the matter thoroughly, and consequently had nothing for publication as yet. The coal market in San Francisco is in a fairly good condition, but the long list of carriers from Australia will have a tendency to stock the yards heavily before long. The output of No. 1 coal was the main topic of conversation today around the pithead, it being the largest output on record with one exception.

Straight Talk By Roosevelt

Deputation of the Strike Leaders Meets President in Chicago.

Are Told That Lawlessness Will Be Put Down With Strong Hand.

Chicago, May 10.—A committee of labor men appointed to call upon President Roosevelt and lodge with him a protest against the employment of federal troops to break the strike, met with the president in the White House late tonight. The committee consisted of President Shea, of the International Brotherhood of Teamsters; Charles Doll, president of the Chicago Federation of Labor; S. Quinn, a member of the Carpenters' Union; and T. Rickert, president of the Garment Workers' International Union. The members of the committee, President Roosevelt and Secretary Loeb were the only persons at the conference.

The following account of what passed in the room was given by Secretary Loeb: After presenting the protest to the President, Mr. Shea, acting as spokesman, said: "We are here to present to you statement, stating our position in the controversy between the employers' association and the teamsters' association. We have understood that they asked your aid in bringing troops to Chicago. We want to present our position to you. It will take about ten minutes; perhaps we had better leave it with you." The President said he would read it at once, and after doing so said: "I have read the petition, and I am glad to see that it is a request for a hearing before any action be taken by the federal government relating to the strike."

Chicago Strike Situation

As yet no suggestion of any kind has come to me from any source that I should take any action. I am wholly ignorant. I have no knowledge of what the situation is or of what steps should properly be taken to end it. I feel, however, that in view of our statement of policies, and the merits of the case, I ought to say this: I regret that you should in the letter have spoken at all of the use of the federal army as you have spoken. No request has been made to me for action by the federal government, but at the same time, Mr. Shea, as you have in this communication brought up that fact, I want to say one thing with all the emphasis in my power: In upholding law and order, in doing what he is able to do.

To Suppress Mob Violence

In any shape or way, the mayor of Chicago has my hearty support. I am glad to be able to say this to you, gentlemen, before I say it to another body. Now let me repeat that I know nothing of the facts of the situation. I know nothing of the right or wrong of the case, I understand my attitude. In every effort of Mayor Dunne to prevent violence by mobs or individuals, to see the laws are obeyed, and that order is preserved, he has the

Hearty Support of the President

of the United States, and in my judgment, he has the support of every good citizen of the United States. Now, gentlemen, it has been a great pleasure to see you, and I am glad to have the chance to say this to you."

Mr. Quinn, who knew the President in his youth, said: "Mr. President, what prompted us to come up with this statement is that for the last three weeks there has been a continuous howl about the federal army. I have known you long enough to know that you would not respond to a one-sided demand, and that you will not respond until you have thoroughly investigated the case."

Men Shot in Riot

It was generally understood by both sides to the strike that there would be no disturbances while President Roosevelt was in the city. There were, however, several outbreaks, one of them occurring in Michigan avenue, a short time after President Roosevelt had passed the spot. In this riot a number of men were cut and shot. During the Marching Club parade today, Mayor Dunne told the President that the most alarming stage of the strike had passed and that the police had control of the situation.

George S. Pearce, a union teamster, was shot and killed tonight by George T. Wadron, a deputy sheriff, who was guarding a Wells Fargo Express Co. wagon. Wadron was arrested.

Pupils Go on Strike

Eight hundred pupils of the Hendricks public school went on strike today because a colored teamster for the Peabody Coal Co. delivered a load of coal at the building. Police sent to the school are alleged to have used clubs on more than one pupil. The crowd quickly scattered. In a riot this afternoon at No. 35 Twenty-second street, Edward A. Wright, a strike sympathizer, was shot by a non-union teamster, who was driving a United States Express wagon. The crowd rushed towards the express wagon, but the police guards repelled the attack, though stones, coal and paving blocks were thrown. A riot (Continued on Page Two.)

Togo is a Sure Winner

A Retired American Admiral Points Out Japanese Superiority.

Gallant Commander of the Empress of India Is Promoted.

Vancouver Man Confesses to Police Murder Committed in London.

From Our Own Correspondent.

VANCOUVER, May 10.—Rear Admiral M. M. Folger, of the United States navy, and until recently in command of the United States Asiatic fleet, was a passenger on the Empress of India. He is retiring on a pension. He said he had no doubt of the forthcoming battle between Japan and Russia at sea. Admiral Togo had decidedly a superiority in the class of armored cruisers which would play a prominent part in the fight. He said: "What is there to prevent him making circles around Admiral Nobogato's slow-moving squadron, which, it is reported, has only a speed of seven knots an hour, and hammering his ships to pieces? He could do the same with Rojestvensky."

To Annex the Yukon

A special from Ottawa says that in the House of Commons last night Premier Laurier suggested that when the conference is held upon Manitoba's claim for increased territory it would be, perhaps, a good policy if we would ask Alberta to join us, and perhaps Ontario and perhaps Quebec, and to ask those provinces to take over the administration of unorganized lands.

Mr. W. F. Maclean—What would become of the Yukon?

Sir Wilfrid Laurier—That would become part of British Columbia.

Confesses to Murder

A few days ago the police received an unsigned letter to the effect that the murderer of Dora Piernick, London, was at the old "Coos." The police thought it a fake and paid no attention to it. The man who wrote it was John Jackson. Last night, as the police refused to lock him up, he came to them and wrote out his confession. He said that in the crime he was weeks in London, and there the police were also indifferent, not coming near him. Today, though warned, he continued to talk, saying that he murdered the woman, a German Jewess, by cutting her throat with a razor at her house, 115 Whitfield street, Tottenham. The man, though addicted to opium, seems sane. He says the murder was committed on the 29th December, 1903.

HONOR TO ROOSEVELT.

Democrats of Chicago Unite in Honoring President.

Chicago, May 10.—Honoring and honored by his political foes, but personal friends, President Roosevelt tonight was chief guest at a magnificent banquet tendered him by the Iroquois Club, the leading Democratic organization of Illinois. Surrounded by men who have fought against him in the national political campaigns, who deplored many of his avowed policies, and who have frowned on some of his political actions, the President tonight was cheered to the echo as he drank to the nation's political opponents.

The banquet was given entirely by Democrats to the leader of their political opponents.

The presidential party left at 12:30 a. m. for Washington.

NEWS OF GRAND FORKS.

Vagrant Lunatic Sighted in the Tall Timber.

Grand Forks, May 7.—(Special)—An unknown lunatic was yesterday seen in the timber up the north fork, just opposite the Seattle mine. Robert Clark, manager of the Seattle property, in speaking to the representative of the Daily Colonist today, said: "My boys discovered this crazy man yesterday in the timber. He was almost nude, and had his face all bleeding. We have no idea who he is, but he certainly has been notified and will take charge of the case."

One of the largest real estate deals ever closed in the Boundary country was completed yesterday, when S. McLean and R. Miller acquired the famous Johnson ranch, consisting of some 1400 acres, about two miles east of the city. The price paid was in the neighborhood of \$40,000. It is the intention of the new owners to subdivide the farm into ten acre lots and place them on the market at once. A provincial surveyor is already employed to make the necessary surveys. It is understood that several ten acre plots have already been spoken for.

WITHDRAW FROM COMBINE.

Trans-Atlantic Lines Give Notice of Withdrawal From Agreement.

London, May 10.—The withdrawal of the Cunard line from the agreement from the combine of steamship lines, announced by Chairman Lord Inverclyde April 13, was followed today by an official announcement from the White Star line and Dominion and American companies combine that these lines had given notice of their withdrawal from the North Atlantic passenger conference first and second class rate agreements, and third-class British and Scandinavian and continental agreements. This action was taken in view of the withdrawal of the Cunard line from all passenger rate agreements because of the refusal of the American line changing its mail service sailing day. The Allan, Anchor and Cunard lines, which are parties to the agreement, have been notified of the combine's withdrawal.

NEW YORK, MAY 10.—Trans-Atlantic

steamship officials here are considerably disturbed by the combine's official announcement of the withdrawal of the White Star, Dominion and American lines of the ship combine from the North Atlantic passenger conference. They believe that this action points to a renewal of a rate war.

ALL ABOARD FOR THE GORGE

On and after Friday, May 5th a half-hour service will be given to the Gorge. Take the E-Quimalt cars, leaving Yates St., at the hour and half hour. Cars leave the Gorge for city at 25 and 55 minutes past the hour

Scenes of Horror Follow Explosion

Train Crashes Into Cars of Dynamite With Fearful Results.

Wrecked Trains Take Fire and a Dreadful Holocaust Ensues.

Harrisburg, Pa., May 11.—An express train on the Pennsylvania railway ran into a freight train in which were two cars loaded with dynamite at 3:10 this morning in South Harrisburg, near the plant of the Paxtang Light, Heat and Power Co.

Three explosions that broke windows all over the city followed and the two trains were completely wrecked and took fire. It was estimated at 3 o'clock that 50 persons were killed and 100 injured, but these figures may be too small. It is impossible to obtain the exact number of fatalities because the wreckage is still ablaze and unapproachable in which many of the passengers and some members of the train crews are pinned. When the first explosions occurred, bodies were thrown clear out of the berths in the sleeping cars, many landing down the railroad embankment and some even having been hurled into the Susquehanna river, which parallels the railroad in that city. All of the city physicians procurable were summoned to work with the injured.

Rescuers Are Helpless
A fire alarm sounded and the firemen arrived to find themselves practically helpless in the work of rescue.

A patrol wagon was commissioned as an ambulance and as many of the injured as possible were loaded into it and each trip, and taken to the Harrisburg hospital, the capacity of which soon became taxed because of the large number brought in.

A special train was made up and brought the injured and dying to the Union station. Many of the injured were taken into private homes.

Ran From Scene of Horror
Immediately after the wreck all the passengers who could do so ran from the scenes of horror to safety from the incessant small explosions. The agonizing cries of the unfortunate were heart rending. The office of the Paxtang Light, Heat and Power Co., looked like a hospital. At an early hour the Harrisburg Traction Co. ran out a number of cars from its south Harrisburg yards and used them to bring the injured to the hospital.

TRAVELER'S SANDWICHES.

Take some sandwiches made with Clark's juicy, appetizing Lunch Tongue. Nothing half so tasty.

NEW FERRY BARGE.

The new ferry barge built for McKenzie Bros at Vancouver is about completed. The barge, which was launched on Saturday last, is 200 feet long with a beam of 30 feet. She was built at a cost of \$15,000 to replace the wrecked Georgian.

A BAD BRUISE

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes the blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No inflammation, no swelling, no pain, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard family remedy of Canada.

THE COST OF FINDING AMERICA.

T. P.'s Weekly.
Colin's whole fleet then was worth only \$3,000, and the admiral's salary was \$300 per annum. The two captains were paid \$200 apiece, and the wages of the crew were \$2.50 a month. It must be remembered, of course, that money in those days was worth a great deal more than it is now.

Theological Conference

Interesting and Valuable Sessions Yesterday of Presbyterian Divines.

Two Notable and Educative Lectures by the Eloquent Dr. Milligan.

A notable feature of the afternoon session of the Presbyterian theological conference yesterday was a welcome accorded to Mr. Vincent Harper, who gave the conference the benefit of his study on the great economic questions of the day. As Mr. Harper spoke specially from the Socialist standpoint, his speech was a welcome one, as the Presbyterian body is by their welcome to Mr. Harper, showed, that they are keen on understanding what the viewpoint of the Socialist is. Such a mutual interchange of views should take place often and there would be less misunderstanding between the ministry and the working men. The great question of the hour in the church is to reach and deal with the mass of people who are moving away from the church, and a stirring paper was read by Rev. Dr. Fraser of Vancouver, who de-

Things look so natural that there is nothing else but the natural. Another danger is to belittle the great incidents of divine history, and think they are only drapery. The third great danger is to forget the solidarity of the people of God.

The genius of Biblical religion is the unfolding of Jehovah to the human race. The Kingdom of Heaven is not literature but righteousness, joy and peace in the Holy Ghost.

Wants That Are Wants
In the evening Dr. Milligan's lecture subject was "Wants That Are Wants," the audience that gathered being rewarded with a rich treat. Seldom indeed has the Victoria people had opportunity of listening to such eloquent and wise words. The chair was occupied by Rev. J. A. Logan of Eburne, moderator of the synod, who introduced, if that was needed, the lecturer of the evening. The choir rendered suitable music during the evening, which was enjoyed by the audience.

Dr. Milligan opened his lecture by remarking that we are prone to put the first and last of our wants in the wrong place. Our boyish ambitions do not remain with most of us. Things that are seen are very influential, and the things that are not palpable have no weight with us. Anticipation of the future often causes anxiety that the trouble itself. Real wants are not great in number, but great in their content. The first is a want of purpose. Boys who have no ambition are to be pitied. Chalmers and Wellington early showed their attitude for preaching and war. Purpose must have purposiveness—it is not enough to project something, but the ability to finish the task is required. Plan out your time, and you can do a lot of good in your programme. A purposeless life is a cursed life.

Here the lecturer gave a word to parents: There is a lack of authority in the home, we are here to be disciplined, and the soldier and shepherd needed to have this to accomplish their work. Train your children—do not be afraid of too much authority. Give your children work to do in the home and do not let them think they have done anything wonderful.

Nothing great was ever won without a hard struggle. The Dutch were trained to hard discipline in keeping out the ocean, and raised up a race of men who could do anything.

Another want that is a want is a want of energy—why should men get to the age of about 40 or 50 be played out? If we take care of our bodies, our bodies will serve us in good stead. We are given a variety of elements in the body, cigarette smoking among boys is detrimental to good physique. Some invalids have done wonderful things, such as Cawper, but he did not do the thing he could have done if he had had a strong body.

There must be variety in life to attain the highest results and the nation that cuts off its best members is in danger of monotony and monotony means death. When France expelled the Huguenots and Russia got rid of the best variety of elements in the nation, and these nations are suffering for this yet, great want is a want of seeing. The great aim of education is to make men see. To see the extraordinary in the ordinary—the ordinary that is wonderful. Too many men want the results without the process. Men of vision are the great men of the day—who can see the general in the particular. Men look at things in an isolated way and mistake the end for the means. To get a vision of the whole is a necessary corrective of the littleness and business of life. To do things, not for men, but for God is to get this vision of the whole.

Another great want is a want of tact. Tact is a skillful touch. In order to be a person of tact you must be of a rich sensitive nature. Humor is a correlative of tact, and is absolutely necessary to a useful ministry for our fellow men.

The above gives a faint idea of what the audience enjoyed in his lecture. Dr. Milligan expressed his delight at having been able to come West, and referred to how greatly he had enjoyed his stay in Victoria.

KNIGHTS OF PYTHIAS.
Annual Conference of Provincial Grand Lodge in Session at Westminster.

New Westminster, May 10.—(Special).—The fifteenth annual convention of the Grand Lodge of British Columbia Knights of Pythias convened yesterday morning in this city. The first order of business was the adoption of the grand officers' reports, which showed the order in this province in a very flourishing condition. Twenty-nine lodges were represented, with a total membership of over 2,300.

The following brothers from Victoria were present: Mr. R. and S. Fraser, Perrier, Dr. M. of Exch. Thos. Walker, Representatives L. Oliver, J. L. Smith, E. E. Leeson, A. Rusta and H. Weber.

The mayor of New Westminster was introduced and welcomed the Grand Lodge members and delegates to the city.

In the afternoon the New Westminster brothers had the S. S. Beaver chartered to take the Grand Lodge to the Fraser river to Ladner's Landing.

The evening session was taken up with routine business. The first order of business today was the election of Grand Lodge officers for the ensuing term. The Grand Lodge received and accepted an invitation from the Vancouver brothers to spend Thursday afternoon and evening with them.

The newly organized Grand Temple of Rathbone Sisters, auxiliary branch of the K. of P., is also holding its first session in this city at the present time.

ACTION IS DISMISSED.

Demonstrator for Seattle Firm Finds Loophole in Provincial Statute.

The first positive test of the recently enacted special law on a "forced" entry of commercial travelers was obtained in an action tried in the provincial police court yesterday afternoon before Stipendiary Magistrate E. H. Hall. The defendant being one Mr. Hackett, representing the Gorham Rubber Company of Seattle, who had been summoned for not having taken out a license to sell his wares in the province, and incidentally paying the price thereof provided.

Mr. Frank Higgins was retained by the defendant to contest the charge, and it was set up in defense that the defendant was in reality a consulting engineer in the employ of the Seattle firm interested, and his visit was primarily for the purpose of

FEEL USED-UP, RUN-DOWN, DRAGGY

Tired All the Time—Nerves on Edge—You Lack the Vigor and Carriage That Ferrozone Can Supply,

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself, but by forming rich pure blood, Ferrozone quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel renewed, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowman, Man., speaks in the following words of praise:

GILLETTS ABSOLUTELY PURE CREAM TARTAR.

Nearly all goods in this line at the present time are adulterated and in fact unfit to use.

GILLETTS is used by the best bakers and caterers everywhere.

REFUSE SUBSTITUTES. GILLETTS costs no more than the inferior adulterated goods.

REFUSE SUBSTITUTES.

Railway lands.

LEONARD H. SOLLY,
Lead Commissioner.

demonstrating the superiority of their special wares—not soliciting orders.

In opposition to this, it was stated in evidence by the tax collector that the defendant had by implication at least admitted that he was here to secure orders; while Mr. Wood, another and disinterested witness, gave evidence to the effect that Mr. Hackett had asked if he might show him a sell his wares in the province, and he points set up by the defence were two: That there had been no soliciting of orders; and that the company had an agency in Victoria, from which any orders that might be taken would have been filled. Upon the latter point the summons was dismissed.

Re Fire Alarms.—Respecting the letter appearing in a recent issue of the Colonist to the effect that it would be more satisfactory when "phone messages are received of a fire that the strokes of the bell, Chief Watson yesterday said no doubt such a system could be inaugurated, but the expense entailed would be considerable. He further explained that when a telephone message is received telling of a fire, the one thought is to get to the scene as quickly as possible, not to satisfy a public curiosity as to which ward it is in. For the firemen, before going out, to hunt amongst the list for the most urgent fire, and then to go out and ring the alarm, would waste a lot of valuable time though it might satisfy some persons of an inquisitive and anxious turn of mind.

LOCAL NEWS.

Board of Health.—A meeting of the civic board of health will be held at the City hall this evening previous to the adjourned meeting of the council. It is understood that the business to be discussed is chiefly of routine character.

Old Buildings Condemned.—In pursuance of its policy to cause the removal of unsightly wooden buildings in the city which have outlived their usefulness, the council has condemned the following structures and they will be pulled down or otherwise destroyed in a few days: Old stable corner of Quadra and Kane streets; one and a half storey frame building on south side of Broad street near the Salvation Army barracks; certain wooden buildings on lot 108, facing on Johnson street.

A Drainage Difficulty.—It would appear that the city will shortly be called upon to adjust a drainage difficulty which has arisen on Alfred street. It will be recalled that at recent meetings of the council letters have been read from Mrs. Emma Hood asking that the city restrain a neighbor from using a drain which runs through her property. The council refused to have anything to do with the matter, claiming that the dispute was one which ought to be settled by the two parties most affected. Mrs. Hood took the position that inasmuch as the drain emptied into a drain drain maintained by the city on Alfred street, it was a matter within the jurisdiction of the city. However, now that the council has refused to take any action, Mrs. Hood has notified the neighbor in question that she will shortly cause the drain to be closed at the point where it enters her property. This having been done, it will be "up to" the city authorities to provide some plan to give the aforesaid neighbor drainage facilities.

Outlook for Fruit.—During the past few days alarming reports have been in circulation in the city to the effect that the recent frosts had done tremendous damage to the fruit and strawberry crops in the districts adjacent to Victoria. A Colonist reporter yesterday called upon Messrs. P. R. Stewart & Co., the Yates street produce dealers, and asked them what information they had on the subject. Mr. Stewart said he had heard the same disquieting rumors, especially respecting the strawberry crop; but from conversations had with R. M. Palmer and others in a position to speak with authority, he did not think the situation was as bad as was made to appear. Mr. Palmer said that Gordon Head district had luckily escaped any damage to the strawberry crops, though the same could not be said in respect to adjacent districts, where the loss would no doubt be considerable; but it was yet too early by a week or so to speak with full knowledge on the subject. Regarding the apple and other fruit crops, it appears that the frosts did not, as far as yet can be ascertained, do any very serious damage, as the trees were not sufficiently advanced to suffer a serious setback. However, the real situation will not be revealed for a week or ten days yet.

One certainly needs a liberal dish of ice cream after going through the laborious operation of making it in an antiquated freezer. The "old freezer" has had its day; the "Lightning" puts it out of business. Easy freezing, its simple construction makes it easy to clean (a great consideration) and it gives practical results. Price, \$2.75 up at Weller Bros., Government street.

"Lovely Hats" in soft and stiff shapes; left from last season, reduced to half price. B. Williams & Co.

The selection of a refrigerator needs great care. You take no chance of disappointment if you choose one from our stock. We have thoroughly tried out their reliability and you can buy one with the perfect assurance of getting absolute satisfaction. Twelve dollars upwards at Weller Bros., Government street.

W. C. T. U.—A special and important meeting of the local W. C. T. U. will be held this afternoon at three in the parlors of the Y. M. C. A. The business listed for consideration is announced as extra-important.

Sons of England.—The juvenile lodge of the Sons of England will hold its next regular meeting at the Sir William Wallace hall on Wednesday evening at 7.30, when it is important that every officer and member should be in his place.

First Spring Tomatoes.—Messrs. P. R. Stewart & Co., the Yates street produce merchants, yesterday received the first of the Spring offerings in local grown tomatoes. They are of excellent quality and were grown at Woodward's gardens, Ross Bay.

Celebration Dance.—Arrangements are being formulated by the Companions of the Forest for a social dance during the progress of the Victoria Day celebration. The dance will be held in A. O. U. W. hall, and will be made one of the merriest yet offered under the auspices of the Companions.

At Government House.—Weather conditions being favorable, there promises to be an unusually large gathering at Government House this afternoon, His Honor the Lieut.-Governor having issued invitations to an At Home, which promises to be one of the most pleasant functions of the springtime season.

Mr. Huggert Will Speak.—An extremely interesting paper is promised for the next meeting of the Y. P. S. of Emmanuel Baptist church, which will be held at the school room, North Chatham street, on Monday evening next. The speaker will be Mr. Alfred Huggert, who is to discuss the "Possibilities of a Young People's Society."

Output of Gold.—F. A. Wing, United States assayer has issued a statement to the effect that from information he has received from all the Northwest Territories this winter the output of gold from the Northern country this year will total \$2,000,000, if not more. From the Klondike alone Mr. Wing predicts an output of from ten to twelve millions.

Street Improvements.—The progress of street improvements to be followed this season by the corporation will shortly be taken hold of in a comprehensive fashion by the city engineer's department and Johnstone street, which will be sections first completed. The cement manufactured at Tod Creek, Saanich Arm, will be used in this work.

Elmer Dixon Chosen.—The members of the Victoria Poultry & Pet Stock Association have decided upon Elmer Dixon, a noted fancier and poultry expert of Oregon City, as judge for the forthcoming exhibition. Mr. Dixon is a gentleman standing high in the poultry world, and all along the Coast, and will no doubt give every satisfaction in his judicial capacity. It is understood that he will also judge at the Vancouver show, following the exhibition in this city. The Victoria show is arranged for January 10, 11, 12 and 13.

Views of Canada.—The Toronto Mail and Empire says: "Mr. Mower Martin, R. C. A. left on Saturday, April 22, by the Canadian Pacific steamer Lake Erie for London to arrange for an exhibition of his Canadian pictures. He has spent the last few years in the Rocky Mountains and in the Columbia, where he has had ample opportunity to study the habits of the Rocky Mountain sheep and goats, and his exhibition will include some large canvases of Rocky Mountain scenery, showing these very interesting animals in their native haunts."

Will Visit Victoria.—A large party of Boston teachers have arranged for a special car over the C. P. R. this summer to Portland, Ore., where they will attend the exposition. They leave the "Hub" on July 5, and arrived in Montreal on July 6. The company is making arrangements to give the party its best service and the special car will be attached to the train to the West. Stops will be made by the teachers at Montreal, Winnipeg, Banff, Glacier, Vancouver and Victoria. On July 14 the party will leave Portland and return through the Rockies to the East.

Speed in Telegraphy.—With a great flourish of trumpets is announced in the Seattle Post-Intelligencer that a telegraph message had been sent from Washington, D. C. to Vancouver, a distance of 6,000 miles, in less than five minutes. The test was made for the benefit of the International Congress of Railway Men now assembled in Washington. This special, however, has been followed by the Pacific Cable and C. P. R. Telegraphs and has been far outdone by the record between Melbourne, Australia, and London, England, a distance of 18,000 miles over which messages have been transmitted in three minutes.

Saanich Cement Here.—The first consignment of cement—500 barrels—manufactured by the Vancouver Portland Cement Co., at the works at Tod Creek, Saanich Arm, has been delivered to the city. The cement is of superior quality and is being used for the construction of the new bridge over the Fraser river. The cement is being used for the construction of the new bridge over the Fraser river.

Honors for Home Artists.—The excellence of the art photography produced in the studios of Mr. H. Mortimer Lamb of this city, and Mrs. C. Dunbar Taylor of Vancouver, has long been known to residents of British Columbia, who will be gratified to learn that their appreciation of the merit in the works of these two local artists is heartily seconded by the most competent judges of the Dominion. At the exhibition of art photography in the 1905 salon at Toronto, no fewer than 1300 works of art were submitted by foreign photographers, 130 being selected by the hanging committee. But four Canadian works were selected, these including works by Mr. Lamb and Mrs. Taylor. The honor of the first prize was conferred in a letter which Mr. S. MacLure, the architect of this city, received a few days ago.

Moleons' Bank Chambers, Vancouver, B.C.

ENGLISH VERGE

During the past few weeks we have repaired several English Verge and Duplex Watches from one to two hundred years old. We found them in a remarkably good state of preservation notwithstanding their long term of service, and after being thoroughly overhauled, pronounced them good for many years to come. Some watchmakers have difficulty in handling these old timepieces; we are quite at home with them and cater especially to that class of work.

W. B. SHAKESPEARE

Arion Club Concert.—The next concert of the popular Arion Club is arranged for the evening of the 22nd. An especially attractive program of new music and old favorites is being arranged.

Board of Trade.—The monthly general meeting of the Victoria Board of Trade, convened for 8 o'clock this evening, will be devoted to the consideration of business submitted by the council. In the report of the committee on the Indian reserve matter with respect to representations made to the city council; and a resolution with respect to preferential trade with the sister colonies of Australia.

Discuss Tourist Travel.—The executive committees of the Victoria and Vancouver Tourist Associations will hold a conference in this city on a few days for the purpose of discussing the suggestion for joint action to induce travel to the British Columbia coast cities during the progress of the big exposition at Portland, and the Dominion fair at New Westminster. The initiative in this matter has been taken by the Vancouver association.

Thankfully Acknowledged.—The management of the Aged Women's Home thankfully acknowledge the following donations for April: Mrs. Sinclair, reading matter; Mrs. Morley, bonnets, caps and boots; Miss Goodall, cape and book; Mrs. Ewer, fresh eggs; Mrs. Becker, buns; Miss Geismann, buns; Mrs. Higgins, brown bread and jelly; Mrs. McLean, bonnet; Mrs. Braverman, reading matter; Daughters of Pity, cake, jelly, sandwiches and coffee; Mrs. O. J. Butler, cake and preserved pears; Mrs. Goodacre, cake; Mrs. C. F. Todd, cash; Times and Colonist, daily papers.

Champions Unfortunate Litigant.—The Yukon cause celebre of Morgan vs. the British Yukon Co. has developed a new aspect, owing to the allowance of the appeal taken by the defendant corporation to the plaintiff in the sum of \$12,000. It will be remembered that Morgan received serious injury through the breaking of a capstan on one of the vessels of the defendant company, upon which he was employed, and alleged delay in providing proper surgical attendance. The jury awarded damages as stated, and the case was then appealed, the company winning. It is now stated that owing to lack of funds to further prosecute his case, the plaintiff stands in danger of losing all, and the matter has at this stage been taken up by the Merchants' Service Guild and local labor unionists, who propose to raise a fund by voluntary contributions sufficient to meet the cost of a further appeal to Ottawa, in which they feel confident that the verdict of the provincial full court would be reversed.

SEATTLE'S CRIMPS.

Preacher of Sound Port Tells of Practice of Shanghaiing Seamen.

In a sermon on Sunday last, Dr. Matthews of the First Presbyterian church in Seattle severely criticized the practice of Seattle crimps in Shanghaiing seamen. The Seattle Star says: "In his sermon the divine vigorously attacked the sailors' boarding houses in Seattle, accusing them of 'doping' and robbing the back tars and then Shanghaiing them at \$30 per head. After the sermon two seamen asked a word in private with Dr. Matthews in his study. There they told him that he had spoken the truth in his sermon. 'You didn't tell half of it, doctor,' said one. 'I've been through the mill. I was drugged and robbed of all my money in one of those dens, and then Shanghaied.' 'Something should be done to stop this horrible practice,' said Dr. Matthews after the Star, which in its editorial condition that confronts us in these modern times that in such a city as Seattle sailors are drugged, robbed and shipped against their will."

An extract from the sermon published by the Star follows: "Your blood-sucking sharks do and sell to shipmasters at \$50 per head poor sailors. This unlawful practice is indulged in perhaps more in Seattle and Tacoma harbors than in any other similar sized harbor in the world."

THE NAVY LEAGUE.

Mr. C. E. Redfern the New President—Honoring Memory of Naval Hero.

The recently appointed committee of the Victoria-British Columbia branch of the league held its first monthly meeting at the secretary's office, 38 Douglas street, yesterday afternoon. The meeting was presided at by Mr. Fraser, Sr., G. E. Redfern, Capt. Clarke, A. F. Welby-Solomon, Col. Wolfenden, I. S. O. J. K. Rebeck, S. A. Roberts, James Thomson, P. L. Neale, Capt. J. Gaudin and Joseph Deirson. The meeting was called to order by the retiring president, Mr. A. B. Fraser, Sr., when after the minutes of the previous meeting had been read and confirmed, Mr. C. E. Redfern was unanimously elected president for the ensuing year and the following were chosen as vice-presidents: His Lordship Bishop Perin, Capt. E. Barkley, R. N., Capt. J. Devereux, A. B. Fraser, Sr., James Thomson, Charles Egan in some, C. E. Clarke, R. C. Stuart, Richard Hall, M. P. P., and Capt. J. Gaudin.

Sundry communications having been read and ordered filed, the secretary reported having conferred with the Premier of the province, Mr. J. H. Turner, in London (Hon. J. H. Turner) being asked to represent the branch of the Navy League in the special celebrations to be held in London on Oct. 21 next, being the occasion of the centenary of the battle of Trafalgar. The Premier expressed himself as fully in sympathy with the matter and arrangements will therefore be made.

The question of a befitting commemoration of this which has been called "Nelson's year," will be the subject of arrangements by a special committee of the League appointed for the purpose, and in all probability the schools and public generally in Victoria will be called upon in some way to do honor to Britain's naval hero. There are some who believe that without the indomitable courage and devotion of Nelson, the British Empire could hardly have had an existence today.

After discussion of other matters of minor importance the meeting adjourned.

A TOURIST SUGGESTION.

Urged that Victoria, Vancouver and Westminster Associations Combine.

The Vancouver News-Advertiser in its issue of Tuesday makes the important suggestion that in view of the exceptional circumstances which will obtain at the Coast this year owing to the simultaneous holding of the Portland exposition and the Dominion fair at New Westminster, the tourist associations of Victoria, Vancouver and New Westminster should unite for a special effort to attract the maximum number of visitors to the Canadian cities this season. The article is as follows:

"The Lewis and Clark exhibition at Portland is expected to draw a very large number of tourists to the Pacific coast, and it is anticipated—and not unreasonably—that many of these visitors will extend their journey and come to British Columbia before turning their faces eastward. Seeing that there will be the Dominion exhibition at New Westminster, it is of more than ordinary importance that nothing practical should be left undone to secure the realization of the anticipation to which we have referred. The tourist associations of the different Coast cities in the province are taking steps to attract visitors to British Columbia. It seems to us that it would tend to economize effort, and make it at the same time more efficient, if the Vancouver, Victoria and New Westminster associations were to co-operate closely in regard to this matter and make a strong and united effort, instead of having three separate and necessarily weaker organizations for the purpose. There is no clashing or conflict of interests between these three towns in regard to tourist travel, and it certainly seems to us that combined action is the method which should be followed in order to obtain the best results. Indeed, apart altogether from the exceptional circumstances caused by the exhibition at Portland, and the effect it is likely to have in inducing travel to this Coast, it would seem that the closer and more intimate the relations between the different associations, the greater and more satisfactory will be the results obtained. It does not require much consideration to see what great economies could be made in many directions by such an arrangement and the greater effect that could at the same time be got by concentration and by the larger funds that would be available for any particular purpose."

On "Riley's Reef"—During the recent blow one of the yachts moored near the Canseway broke adrift from her moorings and struck on "Riley's Reef." No damage was done. As the reader may not find Riley's Reef in the hydrographic charts, it may be well to state that it was an improvement (?) placed in the harbor at the time of the flood of a large deposit of mud placed a few cables' length from the causeway to be forced into the flats by the dredger which came at election times.

Spring Decorating.—The liberal use of the paint brush in the skillful hands of the workmen of Keown & Tite has brought about a very considerable improvement in the exterior appearance of the Green block on Broad street, whose springtime freshness now contrasts strikingly with that of other adjacent premises to which the rejuvenating process might advantageously be continued.

NOTED GUESTS AT THE WASHINGTON.

The Stricken Rose From Grief.

Mr. John C. Freund, Editor of the Music Trades, and His charming Wife Are Guests at the Washington.

"After six thousand miles of travel for the past four months, which includes visits at all the principal cities between New York and Seattle," said Mr. Freund in an interview last evening, "we find ourselves most delightfully pleased with your beautiful city and this magnificent hotel."

"I am looking forward to a return visit, when we shall be present at the opening of your new Moore Theatre, which I understand will be unequalled in this country."

The Washington orchestra gave an especially fine programme for the Sunday music during the afternoon and evening, and was greatly enjoyed by Mr. Freund, who is one of New York's most famous music critics.—Seattle Times.

Victoria's Revenge
From Everett
Yesterday's League Ball Won by
the Locals But With Scant
Margin.

Weather Conditions Militated
Against Attendance and
High Class Ball.
Standing of the Clubs
Won. Lost. Pct.
Bellingham 2 0 1.000
Victoria 1 1 .500
Everett 1 1 .500
Vancouver 0 2 .000

Victoria and Everett played their second
game at Oak Bay before a fair crowd yes-
terday. The weather was anything but
of the baseball kind, a very high wind pre-
valing throughout the afternoon.
The game was of the town ball variety,
hits and errors being most prolific;
this may, however, be well attributed to
the weather conditions. Manager Howlett
went in the box, and up to the eighth in-
ning pitched splendid ball; after this, how-
ever, he weakened to such an extent that
he had probably not been the manager, he
would have been taken out of the box,
which was the course he should have
pursued when he found himself being ham-
pered all over the lot. But he went in
again in the ninth, and five more runs
were scored in that inning, and it was no
fault of his that the Everett players did
not win out.
Doyle, for Everett, was easy for the lo-
cals after the second inning. In the sixth
he started using the famous spit ball, but
the Victoria sluggers took to it like a
duck to water. McManus caught another
due game, although he did make one wild
throw in the third. Mac will be one of the
best in the league before long, if he keeps
up his stride.
Everett went to bat first and went out
in one-two-three. Victoria in their
half managed to get three men on the bags;
both Howlett and Williams had an oppor-
tunity of bringing them in, but neither
could connect safely.
In the second Everett were again blank-
ed, only three men going to bat, and it
was as though Howlett was there with
the goods in the style Victoria again had
a chance of scoring, but were retired with-
out a run.
In the third the run getting started,
Everett getting two, on hits by Sullivan
and Doyle, and a two bagger by Hulen.
Victoria also tallied two, on a two base
hit by E. Ford, an error by the left fielder,
and hits by McManus and Williams. Left
on base, Everett 2, Victoria 1. In the
fourth inning, while the local boys proceed-
ed to fatten up their batting averages at
a run.

Manuka Brings
Many Passengers
To the Editor
And Others
Business is Business, at least
so they say,
And we want to talk business
in a business way.
As we purchase direct from
distillers 'tis plain,
We give to our patrons the
middle-men's gain.
In this proposition our honor's
at stake;
And dealers all round advan-
tage should take.
Arrangements we've made with
a Scotchman, Munro
And can furnish you now with
Scotch whisky you know.
It would take too much space to
tell all we know here
Call on Pither & Leiser any
day in the year.
We gladly will tell you the
story complete,
At the old business stand,
13-15 Yates Street.

GREGG & SON
TAILORS.
62 Yates St.

the steamer was at Fanning island, off
which place she lay six hours. Mr.
Wardrop, superintendent of the cable
station of the Pacific Cable Co. on Fan-
ning island, and Mrs. Wardrop came off
in a boat bringing their infant son, the
first white child born on Fanning island.
As there were several reverend gentle-
men on board the Manuka, the parents
took advantage of the visit to have the
child christened and the passengers at-
tended the ceremony. In celebration of
this event they have subscribed a large
sum in a shilling fund, which is to be
sent to Sydney, whence a silver mug
will be sent to the baby in commemora-
tion of the christening on board the
Manuka.
The steamer arrived at 4:15 p. m., but
some delay was occasioned by the im-
migration inspectors and it was not until
5 p. m. that the passengers were permit-
ted to land by the officials. The steamer
sailed for Vancouver at 6 p. m. The
freight brought by the Manuka was as
follows:
For Victoria: Two hundred cases ap-
ples, 10 cases pineapples, 3 crates fruit.
For Vancouver: Two thousand three
hundred and sixty-seven crates onions, 559
cases apples, 10 cases oranges, 1,800 pieces
sawn timber, 439 ingots tin, 175 cases fruit,
25 cases jam, 20 cases sardines, 20 cases
meats, 10 cases hare, 4 cases cream, 11
cases milk, 4 cases diving gear, 1,035 bales
flax, 2 bales leather, 82 bales wool, 61 bales
skins, 37 bales sheardings, and sundries.

FOR LYNN CANAL.
Steamers Cottage City and Princess
May Leave for Ports of Alaska.
Steamer Cottage City, Capt. Wallace,
sailed from the ocean dock yesterday af-
ternoon for Skagway and Alaskan ports.
The steamer will carry about 100 pas-
sengers, and will be returning to the
Bishop Rowe is returning to the mission
field in the north by the steamer. Other
passengers were Fremont Morris and a
party of surveyors, who go north to con-
tinue the Alaskan boundary survey. They
will depart at 10 o'clock.
Steamer Princess May, Capt. McLeod,
sailed last night via Vancouver for the
North. She had few passengers from
here, but expected to embark many at
Vancouver today.

THE SANTA ROSA.
Repairs Completed and Steamer Re-
turns to Route.
Steamer Santa Rosa, which has been
undergoing repairs at Seattle for some
months, will replace the steamer Senator
for one trip on Saturday, going back to
her old run between San Francisco and
Seattle. The Santa Rosa has been under-
going repairs and alterations, and has re-
ceived four new boilers at Moran Bros.
shipyard, the entire amount of work
done on her entailing an expenditure of
approximately \$20,000. This work was
secured by the Morans as the result of
direct competition with shipyards at San
Francisco and other Pacific Coast ports.
Notwithstanding that the job was a large
one, the ship was turned out in the short
time of three months, a fact that is con-
sidered quite a feat, and a decided re-
commendation for the efficiency of the
yard doing the work.

In addition to having new boilers in-
stalled, the Santa Rosa had considerable
work done on her steel hull, had her en-
gines thoroughly overhauled, and in parts
replaced with entirely new machinery;
an electric plant installed; all of her in-
terior overhauled and cabins enlarged
and refurnished, and the two smoke-
stacks which were formerly supplied
with consolidated into one large stack.
The steamer Queen will return to the
route when the Santa Rosa arrives at
San Francisco.

FROM THE ORIENT.
Shawmut Brings Master of Seized Steer,
Eastby Abbey and Other Passengers.
Steamer Shawmut reached port yester-
day following close behind the R. M. S.
Empress of India. The Shawmut came
from Manila via Hongkong, Woosung,
Nagasaki, Kobe and Yokohama. She had
among her passengers several U. S. ar-
my officers and some school teachers and
others from the Philippines, the captain
of one seized blockade-runner and the
mate of another.
Capt. Pruden, of the steamer Eastby
Abbey, who arrived on route to Cardiff,
said he had taken a cargo of 4000 tons of

Whiskey Habit
Your own fault
if you allow
whiskey to make
home miserable. You can stop it! Yes, you can!
